Legal Review Notice: This document is a draft agreement for internal planning and contractor onboarding purposes. It is not legal advice and should be reviewed by a qualified attorney before use or signature.

1. Integration with Master Agreement

This Project Assignment / Work Order is issued under and integrated with the Bastida Systems LLC Independent Contractor Agreement between Bastida Systems LLC and the contractor. It documents the initial pilot assignment only and does not limit future assignments across Bastida Systems projects.

2. Scope of Work

Three costume design proposals for the initial pilot cycle.

Visual references for clothing, silhouette, materials, and personality.

Written design notes explaining the costume direction.

Clean exported files suitable for internal review and future production use.

3. Milestones

Milestone 1: initial costume references and draft concepts.

Milestone 2: final approved costume design package.

4. Payment Terms

Total pilot amount: \$150 USD.

\$75 USD on or after July 10, 2026, subject to written approval to start the milestone.

\$75 USD on or after August 10, 2026, or upon approval of the final deliverable, whichever is later unless otherwise approved in writing.

No fixed monthly salary is created. Payment is only for approved deliverables, approved milestones, approved work logs, or an approved payment record. Reported work is not automatically payable.

5. Revisions, Source Files, and Approval Criteria

Revision rounds included: One included revision round for the pilot deliverable.

Required source files: Layered art files or working files when applicable, exported images, references, and notes.

Approval criteria: Approved costume package with three proposals, references, notes, and usable exported files.

Changes outside the approved scope require written approval before they are payable.

6. Ownership, Confidentiality, and Portfolio Permission

After full payment, approved deliverables and related source files belong to Bastida Systems LLC or the applicable Bastida Systems project entity. Confidentiality obligations remain in effect before and after payment.

Portfolio permission is not granted unless Bastida Systems approves it in writing. The contractor may not publish confidential project materials or unreleased work without written authorization.

7. Bastida OS Reference and Future Projects

Bastida OS reference: _____. Payments, deliverables, work logs, and approvals should be recorded in Bastida OS when available.

Future assignments for FiltraCore, BEOFlow, Bastida Systems website, internal systems, marketing materials, future products, or client projects require separate written approval, work order, approved milestone, or approved deliverable record.

This Agreement is provided in English and Spanish. In case of conflict between versions, the English version will control, unless otherwise required by applicable law.
